## Ric Moon review

Ric Moon is now a famous pop singer. Last year he won the Rooftops Twin City Song Contest. We asked Ric what it was like to win. "It was fantastic," said Ric, "I was very shy at the beginning of the contest, but I was more confident at the end." Ric played at the Rooftops Festival yesterday. It was a very exciting concert. He played five songs from his new album. The first song was slow and beautiful – I think it is the best song from the album. The other songs were faster and livelier, and most of the people in the audience were dancing! It was great fun.

## Paddington 2 review

On Saturday, I watched a film called *Paddington 2*. Paul King directed the film. It's the sequel to *Paddington* and both films are also stories by Michael Bond.

I really enjoyed the film. It's a comedy adventure about a bear. He goes to prison for stealing a book but of course he isn't really a thief! I think *Paddington 2* was better than *Paddington*. It was funnier and more exciting. The actors were brilliant. Hugh Bonneville and Sally Hawkins were great as Mr and Mrs Brown. They share their home with Paddington.

I give *Paddington 2* a score of 9/10.

You should watch it!
